Professional Experience

Data Analytics and AI Integration - Intern, <i>WhiteBlue Cloud Services</i> - Developed interactive Power BI dashboards using advanced DAX, data modeling, and visualization techniques to support business reporting. - Designed and managed Microsoft Fabric workflows, including Dataflows, Pipelines, and Lakehouse implementations for data integration and processing. - Utilized SQL Server and SQL Server Management Studio (SSMS) for complex querying, data analysis, and reporting support. - Integrated Claude AI with Power BI and SSMS workflows to enhance productivity, automate insights generation, and streamline analytics tasks. - Supported the Talent Acquisition team by implementing AI-assisted recruitment workflows and Applicant Tracking System (ATS) evaluation processes. Technologies: Power BI, DAX, Microsoft Fabric, SQL Server, SSMS, Claude AI, ATS, Data Modeling, Data Analytics	01/2026 – 06/2026 Chennai, Tamil Nadu
Advanced Vehicle Architecture - Intern, <i>Mahindra Research Valley</i> - Built an IoT-driven autonomous vehicle prototype with LiDAR-based perception, ADAS features, and ROS-powered SLAM for intelligent navigation and obstacle avoidance. - Designed a dynamic decision-making system to adapt routes based on floor-level availability. Integrated IoT communication and modular hardware for scalability in smart mobility applications.	06/2025 – 07/2025 Chennai, Tamil Nadu

Education

Master of Science, Electrical and Computer Engineering, <i>Purdue University</i>	08/2026 – Present
Bachelor of Engineering, Electronics and Communication Engineering, <i>College of Engineering, Guindy, Anna University</i>	10/2022 – 04/2026
Higher Secondary Certificate (HSC), CBSE, India, <i>DAV Higher Secondary School</i>	06/2020 – 07/2022

Skills

MATLAB | Xilinx Vivado | Microsoft Office Suite | Python | PowerBI | Leadership | Teamwork |
Microsoft Office Suite | Claude | Vibe Coding | AI Integrations

Projects

DB.Whisperer
A local-first app (Python + Ollama) that converts natural language questions into SQL queries and returns the results as clean, Power BI-esque visual reports instead of raw tables. Actively in development, with more features planned in the pipeline.

PickMySeat

AI-powered TNEA (Tamil Nadu Engineering Admissions) college seat predictor trained on 2021–2025 admissions data, covering 550+ colleges. Users enter their marks and get rank-band predictions with college/course admission probabilities. Built full auth + freemium tiers (free/registered/premium), Razorpay payments, and a counselling simulation feature. Solo-built and shipped end to end.

CabRouting

Automated weekly cab routing system for ~247 employees across a Chennai MNC. Handles gender- and seat-constrained allocation across 4-seater and flexible 6-seater vehicles. Production-ready as of July 2026 with 0 critical/high security findings. Roster-upload UI and drag-and-drop reassignment in progress.

WayFinder

Internal wayfinding app for indoor navigation — designed for spaces like offices, malls, or campuses where users need turn-by-turn guidance without GPS.

WeatherWeb

A weather web app — clean UI for checking current conditions and forecasts.

Security System using Raspberry Pi, Undergraduate Project

08/2024 – 12/2024

Developed a security biometric system using the raspberry pi module which detects a person based on their identification card (RFID Tag) and Face Detection.

Smart Vision for Visually Impaired People, Undergraduate Project

06/2025 – 12/2025

Assistive vision system combining YOLO-based real-time object detection with OCR to read street signs and surroundings, converting detections to audio feedback for safer navigation. Frame-by-frame analysis for timely obstacle alerts. Focus: accessibility and real-world usability.

Roles and Responsibilities

The Guindy Times, Vice President

06/2025 – Present

CEG Cricket Team, Vice Captain / Wicket - Keeper

01/2023 – 12/2024

Electronics and Communication Engineers Association, Joint Secretary

07/2023 – 04/2024

The Thulasidass Foundation, Volunteer
